

API 5CT L80 Seamless Steel Oil Gas Casing Pipe

Our Product Introduction

for more products please visit us on pipe-seamless.com

Basic Information

- Place of Origin: hebei, china
- Brand Name: BaoYang
- Certification: CE & ISO
- Model Number: Seamless Steel Pipe
- Minimum Order Quantity: 1
- Price: Negotiable
- Packaging Details: Wooden packing
- Delivery Time: 7~15 working days
- Payment Terms: L/C, D/P, T/T, Western Union

Product Specification

- Name: Seamless Steel Pipe
- Process: Hot Rolled Cold Rolled Cold Drawn
- Standard: API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
- Length: 6M 12M OR According To Customer Requirements
- Technology: Hot Rolled Cold Rolled
- Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)
- Processing Service: Bending, Punching, Cutting
- Ends: Beveled Thread+Couplings
- Highlight: **API 5CT L80 Seamless Steel Pipe, L80 Seamless Steel Pipe, Oil Gas Casing Seamless Steel Pipe**

Product Description

Product Description:

The wall thickness of this product ranges from 1-20mm (0.04 Inch - 0.78 Inch), which is perfect for various applications. It is available in different sizes to meet the specific needs of customers.

The Seamless Steel Pipe is manufactured using different technologies such as Hot Rolled, Cold Rolled, and Cold Drawn. The Hot Rolled technology is used to manufacture pipes with larger diameters, while the Cold Rolled technology is used to manufacture pipes with smaller diameters. The Cold Drawn technology is used to manufacture pipes with high precision.

One of the main benefits of the Seamless Steel Pipe is that it is seamless, which means that there are no joints or seams. This makes the product stronger and more reliable than other types of pipes. Additionally, the Seamless Steel Pipe is resistant to corrosion and can withstand high temperatures.

The Seamless Steel Pipe is also known as the Carbon Steel Seamless Pipe, which is commonly used for fluid transportation. This product is ideal for transporting fluids such as water, oil, and gas. It is also commonly used in the construction industry for building structures such as bridges and buildings.

In conclusion, the Seamless Steel Pipe is a high-quality product that is perfect for a range of applications. It is durable, long-lasting, and can withstand high temperatures and corrosion. It is available in different sizes and manufactured using different technologies such as Hot Rolled, Cold Rolled, and Cold Drawn. It is also known as the Carbon Steel Seamless Pipe and is ideal for transporting fluids such as water, oil, and gas.

Features:

Product Name: Seamless Steel Pipe

Technology: Hot Rolled, Cold Rolled

Material:

Carbon Steel

Alloy Steel

Wall Thickness: 1-20mm (0.04 Inch - 0.78 Inch)

Processing Service:

Bending

Punching

Cutting

Standard:

API

ASTM

JIS

API 5CT

API 5L

ASTM A106-2006

ASTM A53-2

Seamless Steel Pipe For Fluid Transportation, Alloy Seamless Steel Pipe, High Pressure Boiler Steel Pipe

Technical Parameters:

Processing Service	Bending, Punching, Cutting
Standard	API, ASTM, JIS, API 5CT, API 5L, ASTM A106-2006, ASTM A53-2
Ends	Beveled Thread+Couplings
Wall Thickness	1-20mm (0.04 Inch - 0.78 Inch)
Usage	Pipeline Transport, Oil/Gas Drilling, Machinery Industry
Material	Carbon Steel, Alloy Steel
Name	Seamless Steel Pipe
Length	6M 12M OR According To Customer Requirements
Technology	Hot Rolled, Cold Rolled, Cold Drawn

Keywords: Alloy Seamless Steel Pipe, Carbon Steel Seamless Pipe, Low Temperature Steel Pipe

Applications:

The Carbon Steel Seamless Pipe is an ideal choice for pipeline transport as it offers high strength, durability, and corrosion resistance. It is commonly used in oil and gas steel pipes and can withstand high pressure and temperature changes. This makes it suitable for use in harsh environments and ensures that it can endure the challenging conditions of oil and gas drilling.

The Oil and Gas Steel Pipes are also perfect for use in machinery industry applications. The seamless steel pipe's wall thickness ranges from 1-20mm (0.04 Inch - 0.78 Inch), and it can be bent, punched, and cut to fit various machinery parts and components. Its excellent mechanical properties make it ideal for use in machinery components that require high strength and durability.

Overall, BaoYang Seamless Steel Pipe is a versatile product that can be used in various application occasions and scenarios. Its reliable performance, durability, and corrosion resistance make it an excellent choice for pipeline transport, oil and gas steel pipes, and machinery industry applications. So, if you require high-quality seamless steel pipes for your industry, BaoYang Seamless Steel Pipe is the perfect solution.

Support and Services:

Our company offers comprehensive technical support and services for our seamless steel pipe product. Our team of experts is available to answer any technical questions or concerns you may have, and we are dedicated to providing timely and efficient solutions to any issues that may arise.

In addition, we offer a range of services to ensure the maximum performance and longevity of our seamless steel pipe products. These services include:

Installation support and guidance

Maintenance and repair services

Inspection and testing services

Customized solutions to meet your specific needs

We take pride in our commitment to customer satisfaction and strive to exceed your expectations in every aspect of our technical support and services.

Packing and Shipping:

Product Packaging:

Seamless steel pipes will be packed in bundles with steel strips.

Each bundle will be wrapped with plastic sheeting.

Ends of the pipes will be protected with plastic caps.

The bundles will be secured with packing straps.

Shipping:

Shipping will be done via ocean freight or air freight depending on customer's preference and urgency.

Transportation will be arranged by the supplier.

The pipes will be loaded onto containers or onto cargo planes after passing inspection.

Shipping documents will be provided to the customer before and after the shipment.

The customer will be informed of the estimated time of arrival and any updates during the shipment.
